Bad BLOOD

"Before I began using Cascarets I had a bad complexion, pimples on my face, and my food was not digested as it should have been. Now I am entirely well, and the pimples have all disappeared from my face. I can truthfully say that Cascarets are just as advertised; I have taken only two boxes of them."

Stomach Blood and Liver Troubles

Much sickness starts with weak stomach, and consequent poor, impoverished blood. Nervous and pale people lack good, rich, red blood. Their stomachs need invigorating for, after all, a man can be no stronger than his stomach. A remedy that makes the stomach strong and the liver active, makes rich red blood and overcomes and drives out disease-producing bacteria and cures a whole multitude of diseases.

Get rid of your Stomach Weakness and Liver Laziness by taking a course of Dr. Pierce's Golden Medical Discovery—the great Stomach Restorative, Liver Invigorator and Blood Purifier.

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate Stomach, Liver and Bowels.

CHRISTIAN CHURCH MEETING

There was one addition to the Christian Church at the services held last night. "What is Your Life?" was the theme of the splendid sermon delivered by Rev. Crossfield. It was, as have been his former discourses, a masterful appeal for righteous living and the Christian confession.

Mr. Sturges' solo was "Somebody Knows." Service at the usual hour, 7 o'clock, this evening. Subject of the sermon, "Preaching Jesus."

At 6 o'clock the lecture on Sunday-school work is delivered in the Sunday-school room of the Church by Mr. Crossfield. To this very helpful meeting every one is invited, and those interested in Sunday-school work are especially urged to attend.

The three-year-old twins of Mr. and Mrs. Holton Key of the East End accompanied their father to Cincinnati, where they underwent an operation yesterday at Dr. Holmes' Hospital for adenoids. The little tots stood the painful operation like soldiers, and were reported this morning as getting along nicely. At the same time and place Mrs. M. C. Hutchison of the Sixth Ward was operated on for imperfect vision.

20 CENTS

Per Pound Paid For 1910 Crop of
Fayette Tobacco—Sales of
Burley Tobacco Continue

At Lexington the record price for 1910 tobacco this season was paid on Wednesday when 20 cents was bid for a part of the crop which was raised on the farm of Dr. H. S. Halley of Fayette county by his tenant, a Mr. DeBuler.

The crop was an extra fine one and ranged in price from 6 cents for the damaged grades to 20 cents for the bright leaf, the average for the entire crop of more than 5,000 pounds being \$15.75 per hundred. Several buyers shared the crop.

The sales for the day were not up to those of Tuesday in amount, as the offerings only approximated 115,000 pounds.

LOUISVILLE, Ky., October 26th—Sales of the 1909 pool of Burley tobacco continued on the local auction breaks today, a total of 125 hogheads being offered.

The highest price realized was \$18.25, while the average was somewhere between \$11 and \$12.

New 1910 Burley was in more liberal supply, 221 hogheads being offered.

The American Tobacco Company took a good share of the old Burley offered and a good percentage of the better class of new tobacco.

CINCINNATI, O., October 26th—Increased interest marked the second day's auction sale of the Burley tobacco pooled in 1909, on the Cincinnati breaks Wednesday. The American Tobacco Company's representatives, W. A. Spaulding and John Harper, were bidders throughout the sales.

Honest Advice to Consumptives

Somehow there exists a vast amount of skepticism as to the possibility of curing Consumption. . . . We state none but facts, and are sincere in what we assert. . . . If ourselves afflicted with Tuberculosis, we should do precisely what we ask others to do—take Eckman's Alterative promptly and faithfully. . . . The reason we should do this, and we warrant we have for asking all Consumptives to take it, is that we have the reports of many cures, one of which follows:

1619 Susquehanna Ave., Phila., Pa.
Gentlemen: "For two years I was afflicted with hemorrhages of the lungs the number totaled nearly one hundred. Our family physician advised another climate, as to remain would probably be fatal; however, I remained, and in February of 1902 I was taken with a severe attack of pneumonia. When I recovered sufficiently to walk about the house I was left with a frightful hacking cough which no medicine I had taken could alleviate. I was again advised to go to another part of the country. It was at this time, March, 1902, that I learned of Eckman's Alterative. In a short time my cough was gone and I was pronounced 'well' or 'cured.' Since that time I have had two slight attacks of pneumonia and I have resorted to no other medicine to effect a cure.

I am at present in excellent health and feel that as long as I can obtain Eckman's Alterative I have no fear of Consumption. I cannot speak too highly for the good it has done."

(Signed) HOWARD L. KLOTZ.

Danderine

Grows Hair
and we can

PROVE IT!

DANDERINE is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful. It at once imparts a sparkling brilliancy and velvety softness to the hair, and a few weeks' use will cause new hair to sprout all over the scalp. Use it every day for a short time, after which two or three times a week will be sufficient to complete whatever growth you desire.

A lady from St. Paul writes in substance, as follows:

"When I began using Danderine my hair would not come to my shoulders and now it is away below my hips."

Another from Newark, N. J.

"I have been using Danderine regularly. When I first started to use it I had very little hair, now I have the most beautiful long and thick hair anyone would want to have."

KINNEY MAC

Here at Last—Maysville's Auto Hose Machine and Chemical Fire Fighter is a Real Beauty—Trial Tests Eminently Satisfactory

With the general approval of the public at large the City Council, at considerable outlay, has reorganized the Fire Department by making it efficient and effective, and instituting a new order of things in general.

New and up-to-date mechanism has supplanted the obsolete way of fire fighting of forty years ago, and with the equipment and systematic organization of the present day much is to be expected in the way of curtailing fire losses and in the reduction of the present insurance rates. With the alarm system in working order and the new machine at its best these things can and will assuredly be accomplished.

The Kinney Mac is a sixty horse-power motor machine, and when it made its appearance on the street yesterday in charge of Mr. Fred A. Perkins of Springfield, Mass., having aboard Mayor Lee and the Fire Committee, for a test trial, the forty-mile an hour "Red Devil" created quite a commotion among the populace who witnessed its wonderful speed and power. With fifteen passengers the machine climbed the Market street steep ascent to Fifth to the Almshouse in Sixth street at a rate of twenty miles an hour—it has a speed limit of forty miles an hour.

The first day's test trials were eminently satisfactory to Mayor Lee, Fire Committee and Chief Edward Hite. Mr. Perkins will remain here two weeks drilling and perfecting the crew in the minute details of the workings of the machine.

The Kinney Mac cost \$4,800, and similar machines are in use in Boston, Mass. and other large Eastern cities. Its equipment consists of 1,000 feet of hose, 135-gallon chemical tank under the driver's seat, 200 feet one-inch chemical hose, 2 standard firemen's axes, 1 crowbar, 1 Detroit door opener, 2 plaster hooks, 1 12-foot roof ladder, 1 20-foot extension ladder, 1 20-gallon pony fire extinguisher, 1 siren whistle, 3 head lights, 1 swivel light and 2 standard firemen's lanterns.

The machine is manned as follows—
Chief—Edward Hite.
Operator—James Buckley.
Firemen—R. J. Newell and Andy Reed.
After a most thorough test and found to come up to all requirements called for in the contract the machine will be turned over to the city through the Fire Committee—J. C. Everett, A. Clooney, S. R. Harover, O. Greenlee, T. P. Boyce and M. C. Hutchison.

SUDDEN DEATH

Wednesday's LEDGER contained a brief
notice of the death of Mrs. Kate Moran, which
occurred some time between 7 and 9 o'clock
yesterday morning at her home in East Second
street, Fifth Ward.

The deceased was aged 47, and was the wife
of William Moran. She had been complaining
for a few days, but was still able to do her
housework, and had prepared the morning
meal as usual. When Mr. Moran departed for
his work his wife did not complain of any
change in her condition for the worse, and her
demise came as a great shock.

Mrs. William Nicholson, a near neighbor, on
entering the house, found Mrs. Moran in a re-
clining position on a couch, and supposing she
was resting, remarked: "Why, you haven't
washed your breakfast dishes; you look like a
dead person." On approaching the couch she
was horrified to find that she was really dead,
though still warm. She had died of heart
trouble.

Besides her husband and mother, she is sur-
vived by one brother, Thomas Moran of Catletts-
burg, and one sister, Mrs. Fred Bauer of West
Third street.

Funeral Friday morning at 9 o'clock from
St. Patrick's Church. Interment in Washing-
ton Cemetery.

\$100 Reward, \$100.

science has been able to cure in all its stages, and
that is Catarrh. Hall's Catarrh Cure is the only
positive cure now known to the medical fraternity.
Catarrh being a constitutional disease, requires a
constitutional treatment. Hall's Catarrh Cure is

the patient strength by building up the constitu-

HOW OLD PEOPLE

May Prolong Their Lives.

At an advanced age waste is more rapid
than repair. The organs act more slowly and
less effectually than in youth. The circula-
tion is poor—the blood thin and watery—the
appetite poor and digestion weak.

I want to say to every aged person in this
vicinity that Vinol, our delicious cod liver
and iron tonic (without oil), will prolong life. It
creates an appetite, aids digestion and makes
good blood. In this natural manner Vinol
retards waste and replaces weakness with
strength, giving new life to the worn system.

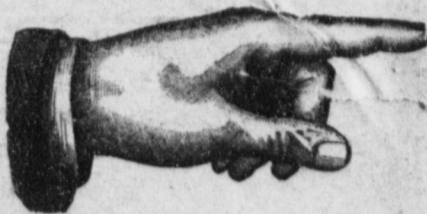

If people in this vicinity only realized how
Vinol invigorates old people I would not be
able to supply the demand.

Try a bottle of Vinol with the under-
standing that your money will be returned if it
does not help you. John C. Pecor, Druggist,

up and put down the evil by asserting their constitutional rights. If the liquor interests defy the laws by selling on Sunday, then these same liquor dealers must prepare for the human wrath which is sure to be visited upon their sinful heads.

Of all the law breakers in the long and black calendar, the worst, by far, is the Sunday liquor seller. Maysville has been cursed to the very depths by this heinous evil, but now in these decent and respectable days the Sunday liquor seller is an outlaw and is outlawed by every moral and legal sense and is as bad a menace to society and the public as a rabid dog or any other enemy of law and order and human happiness.

The place for the Sunday liquor seller is behind the bars of the Penitentiary, where a few years in garish stripes may teach him that it is a rather dangerous as well as costly experience to break the Sabbath laws just for the few evil dollars he makes by his sneaking Sunday selling.

THE PUBLIC LEDGER is a believer in high license as a regulator of the whisky evil. The drinking of liquor can never be stopped by law, although it may be lessened by its impartial and rigid enforcement, and we know and all know that legislation cannot regulate or control the human appetite. But Sunday selling and the traffic in drink on the Sabbath day is so outrageously unlawful and awful that we agree to lend all our aid in suppressing the crime and in exposing the city, county or State officials who dare to wink at it or stand in with the felons who break the law.

It is good to see that this so-called political "insurgency" is nothing more than an awakening of the Christian morals of an outraged people, who from time out of mind have been fleeced by grafters and led by demagogues, mountebanks and immoral bosses, who, nine times out of ten, are hand in glove with those who dominate the liquor interests and take a gleeful pride in dispensing liquors on Sunday.

Again it is in order to write on BELSHAZZER'S wall, "Menee, menee!"

Gas Light Talks—No. 40.

The Company's Officers.

Mayor Lee's third question is: Were Mr. Rufus Dryden or Charles A. Walther ever on the payroll of your company?

We do not understand this question, but we will say that the gentlemen named were never on the company's payroll. Further than that they were never, in any way, connected with the company, nor did they ever receive from it any pay.

The fourth question asked is: How many officers, (has the company) what are their salaries and who are they?

The parenthesis are ours.

This question strikes us as being unnecessary and somewhat impertinent.

In the first place, Maysville is not so large that a public man like Mayor Lee can be uninformed as to the officers of a public service corporation. Secondly, Mayor Lee is not a stockholder in this company, so it is really none of his business what salaries it pays.

However, as we promised in the beginning to reply to all of the Mayor's questions, we'll answer.

The Maysville Gas Company has one officer, Horace J. Cochran, who combines the duties of president and manager. His salary is \$1,000 a year. This is the only salary allowed to any member of the directorate.

That is to say, the president and manager is allowed that salary by vote of the directors. As a matter of fact, Mr. Cochran's salary and that of his father, R. A. Cochran, who held the office before him, at a similar salary, are some thousands of dollars in arrears.

This is due to the fact that, owing to the needs of the company, it was deemed best to suspend payment of the president's salary for some years. No interest has ever been paid or demanded on these arrears.

Now, for this \$1,000 a year—a large part of which is unpaid—the company has had not only the services of its president and manager, but it has also had the benefit of the best legal advice and service when such was necessary. This advice and service has never been charged against the company.

Further than that, the company was, for years, supplied with office room free of all rent, and it is only since the growth of the company rendered necessary the exclusive occupancy by it of its present quarters, that any rent has been charged.

This rent has never been paid, because it was felt by the Cochran Estate, which owns the building, that the money could be used to better advantage in building up the company's property for the benefit of the stockholders.

Maysville Gas Company

Horace J. Cochran, President.
